

1 32. (New) The method of claim 31, wherein said accessing of said data base to select said  
2 appropriate personal comprises evaluating a current geographical location of a set of available  
3 personnel.

1 33. (New) The method of claim 31, wherein said accessing of said data base to select said  
2 appropriate personnel comprises evaluating scheduling information of a set of available  
3 personnel.

1 34. (New) The method of claim 31, wherein said accessing of said data base to select said  
2 appropriate personal comprises evaluating medical equipment available to a set of available  
3 personnel.

1 35. (New) The method of claim 31, wherein receiving said patient medical information via  
2 said Internet web site comprises receiving said patient medical information automatically from  
3 a medical device co-located with a patient.

1 36. (New) The method of claim 31, wherein sending said wireless dispatch information  
2 includes sending patient medical record information, current medical condition information,  
3 and current patient location information.

1 37. (New) The method of claim 31, further comprising querying for additional medical  
2 information via said web site before executing said computer program.

1 38. (New) The method of claim 31, further comprising sending an e-mail message to a  
2 registered party in response to receiving said medical information.

1 39. (New) The method of claim 31, further comprising responding via said web site in  
2 response to sending said wireless dispatch information.

2 40. (New) The method of claim 31, wherein said reviewing of medical information comprises  
2 accessing previously stored medical condition information.

1 41. (New) The method of claim 31, wherein the operation of executing said computer  
2 program comprises manual execution by trained personnel.

1 42. (New) The method of claim 31, further comprising receiving electronic information from  
2 said selected personnel regarding treatment of the patient and storing said electronic  
3 information in a medical file.

1 43. (New) The method of claim 31, further comprising receiving electronic information from  
2 said selected personnel regarding treatment of the patient and automatically generating a  
3 responsive bill.

1 44. (New) The method of claim 31, further comprising receiving electronic information from  
2 said selected personnel regarding treatment of the patient and notifying a registered party via  
3 an automatic e-mail message.

1 45. (New) The method of claim 31, further comprising receiving electronic information from  
2 said selected personnel regarding treatment of the patient, automatically scheduling a

- 3 follow-up visit, and notifying a registered party via an automatic e-mail message of said  
4 follow-up visit.

1 46. (New) The method of claim 31, further comprising:

2 the selected personnel receiving wireless dispatch information concerning a patient

3 including current location information, current medical symptoms and historic medical  
4 records;

5 the selected personnel following said location information to locate and treat said patient

6 according to said wireless dispatch information;

7 the selected personnel entering medical treatment information in response to patient  
8 treatment; and

9 wirelessly transmitting said medical treatment information to a central location.

1 47. (New) A method of providing medical care comprising:

2 receiving medical information automatically from a medical device located at a patient's  
3 current location;

4 executing a computer program to review said medical information to determine an  
5 appropriate response personnel;

6 accessing a data base to select appropriate personnel; and

7 sending wireless dispatch information to said appropriate personnel.

1 48. (New) The method of claim 47, wherein said accessing of said data base to select said  
2 appropriate personal comprises evaluating a current geographical location of a set of available  
3 personnel.

1 49. (New) The method of claim 47, wherein said accessing of said data base to select said  
2 appropriate personal comprises evaluating scheduling information of a set of available  
3 personnel.

B2  
G1  
1 50. (New) The method of claim 47, wherein said accessing of said data base to select said  
2 appropriate personal comprises evaluating medical equipment available to a set of available  
3 personnel.

1 51. (New) The method of claim 47, wherein receiving said patient medical information via  
2 said Internet web site comprises receiving said patient medical information automatically from  
3 a medical device co-located with a patient.

1 52. (New) The method of claim 47, wherein sending said wireless dispatch information  
2 includes sending patient medical record information, current medical condition information,  
3 and current patient location information.

1 53. (New) The method of claim 47, further comprising querying for additional medical  
2 information via said web site before executing said computer program.

1 54. (New) The method of claim 47, further comprising sending an e-mail message to a  
2 registered party in response to receiving said medical information.

1 55. (New) The method of claim 47, further comprising responding via said web site in  
2 response to sending said wireless dispatch information.

1 56. (New) The method of claim 47, wherein said reviewing of medical information comprises  
2 accessing previously stored medical condition information.

1 57. (New) The method of claim 47, wherein the operation of executing said computer  
2 program comprises manual execution by trained personnel.

1 58. (New) The method of claim 47, further comprising receiving electronic information from  
2 said selected personnel regarding treatment of the patient and storing said electronic  
3 information in a medical file.

1 59. (New) The method of claim 47, further comprising receiving electronic information from  
2 said selected personnel regarding treatment of the patient and automatically generating a  
3 responsive bill.

1 60. (New) The method of claim 47, further comprising receiving electronic information from  
2 said selected personnel regarding treatment of the patient and notifying a registered party via  
3 an automatic e-mail message.

1 61. (New) The method of claim 47, further comprising receiving electronic information from  
2 said selected personnel regarding treatment of the patient, automatically scheduling a  
3 follow-up visit, and notifying a registered party via an automatic e-mail message of said  
4 follow-up visit.

1 62. (New) A method of patient treatment comprising:

2 receiving wireless dispatch information concerning a patient including current location  
3 information, current medical symptoms, and historic medical records;  
4 following said location information to locate and treat said patient according to said wireless  
5 dispatch information;  
6 entering medical treatment information in response to patient treatment; and  
7 wirelessly transmitting said medical treatment information to a central location.

1 63. (New) The method of claim 62, further comprising wirelessly ordering delivery of  
2 medication for said patient.

1 64. (New) The method of claim 62, further comprising wirelessly ordering delivery of medical  
2 equipment for said patient.

1 65. (New) The method of claim 62, wherein said medical treatment information comprises a  
2 request to automatically schedule a follow-up visit for said patient.

1 66. (New) The method of claim 62, further comprising wirelessly contacting a predetermined  
2 party as to said medical treatment information via e-mail.

1 67. (New) The method of claim 62, further comprising wirelessly transmitting admission  
2 information for admitting said patient to a hospital.

1 68. (New) The method of claim 62, further comprising sending wireless notification of a  
2 current clinician location.--
